James Toney - jtoney@ci.friendswood.tx.us

I have worked with Leigh Walden and fun abounds for over 10 years on multiple park projects, with every project turning out perfect. I will always call Leigh and her team first when starting any new projects.

## Brazos Bend Elementary

Rebecca DeVeaux (PTO President 2013-2015) - rebecca@deveaux.cc I had the pleasure of working with fun abounds on the walking path for Brazos Bend Elementary. Leigh Walden and her team worked tirelessly to help me at every step to get this project completed. It was a long process through our MUD boards, which paid for the track, and the school district but Fun Abounds was patient and always there when I needed more information or documentation.

The track itself is fantastic. The kids love walking on it and the staff and parents are thrilled with the safety of the material. No more cut and scraped knees and hands. No more twisted ankles from potholes in the concrete. We could not be more excited to have this new track for our kids. I know it will be there for many years.

Thank you Leigh and fun abounds for all you did to help us. I would be proud to recommend you to any school wishing to make improvements to their facility.

**"I will always call Leigh and her team first when starting any new projects."**

# PLAY THAT MOVES YOU™

Play moves us in a big way and Burke believes our exciting play environments will move you too! Physical movement is the most obvious type, but what about emotional movement that stems from the feeling of pride felt when watching a child accomplish something for the first time? We are moved by social situations when children of all abilities come together to enjoy the childhood staple of play. It moves us to create playgrounds that foster these scenarios and more. Come and move with us!

## Physically

Burke's unique playgrounds feature a fusion of traditional and fitness-based play to get kids moving like never before. Kids get a great workout while having fun! Our combination of traditional and active play events create a space where children of all abilities can play together.

## Cognitively

Research shows that play provides tremendous cognitive developmental benefits to children, including creativity, problem solving, abstract thinking and imagination. There's no such thing as too much of a good thing when it comes to play!

## Socially

Play brings communities together and strengthens families and friendships. Burke's playgrounds provide amazing opportunities for kids to develop socially from playing independently at a young age, transitioning to parallel play and learning how to cooperatively play together as their development continues.

## Emotionally

Creativity and imagination are powerful types of play and a great play environment stimulates these experiences. Burke offers a wide range of themed playgrounds and sensory play events.

## Literally

Movement is essential to life and to play. Motion play creates movement for children of all abilities and assists with many developmental areas, including increased spatial awareness, inner ear stimulation and balance. Motion can be soothing to children with sensory processing differences and offers an interactive activity for everyone to enjoy.

# BURKE'S HISTORY

John Edward was a farmer in Fond du Lac, WI and farmed the land the Burke company headquarters stands on today. In 1920, he incorporated a weather-stripping company that quickly expanded to include the design and production of designer radiator furniture. After receiving a request to fabricate a slide for a family friend, Burke entered the playground industry! Soon playground products were the company's main focus and they introduced Swing King, a residential line of play equipment.

When World War II began, Burke, like many companies, changed their focus to the war effort. J. E. Burke, always an inventor, devised a self-contained ammunition cart that could be parachuted to army personnel. The Parachute, as it was suitably named, was also used to deliver food and medical supplies. The company's dedication earned special recognition, and in 1943, the J.E. Burke Company was awarded an Excellence in War Production citation. Over the next 40 years, the Burke family grew the business and began to add interesting color and material combinations. In 1972, Burke invented the original Funnel Ball® that became a staple on playgrounds across the country.

In the late 1990's, Greg Burke, grandson of founder J.E. Burke, determined it was time to find a successor to lead the business into the 21st Century. Tim Ahern became the president/CEO of Burke in 1997 and remained until 2015 when Incline Equity Partners invested in Burke and Michael Phelan became the new president/CEO.

Burke remains committed to the original innovation, customer service and superior quality that sustained the company for generations. As we move into 2016 and beyond, we are bringing play to the next level with our focus on "Play That Moves You" and innovating products that move all of us in so many ways.

**TODAY WE CONTINUE TO  
STAND BY J.E. BURKE'S  
ORIGINAL COMMITMENT  
TO SUPERIOR QUALITY,  
OUTSTANDING SERVICE AND  
CONSTANT INNOVATION.**

**KoreKonnnect® Direct-Bolt Clamp System:** Nucleus and Voltage feature our Industry-leading KoreKonnnect direct-bolt clamp system resulting in the strongest and most accurate connection system ever. Factory located connection points make for easy, precise installation and an error-free fit. Best of all, KoreKonnnect is covered for 100 years under our non-prorated Generations Warranty.

**Direct-Bolt Connection System:** Intensity and Little Buddies feature Burke's trusted direct-bolt connection that uses a durable, straightforward direct-bolt system to ensure a trouble-free installation and provide the necessary strength to accommodate the demands of playing children. Like our KoreKonnnect system, Direct-Bolt connections are covered for 100 years under our Generations Warranty.

**EZKonnnect® Deck Mounting System:** Our exclusive self-leveling deck attachment and factory CNC construction allows for faster and more precise location of decks during installation. The 2-bolt per corner deck attachment increases overall structure strength and stability.

**Platforms:** Burke's oversized non-slip platforms are constructed of heavy-duty punched steel that can support more than two tons. Our vinyl coating is California compliant, free of lead and other hazardous heavy metals.

**Tamper-Resistant Stainless Steel Hardware:** All hardware is covered for 100 years under our Generations Warranty.

**Premium Powder Coatings:** Our industry-leading powder coatings and finishes prevent fading, last longer and deter rust. We also offer a "coastal package" powder coat system. This special powder coat system for metal components and upright posts will provide additional corrosion and chemical protection along with added longevity to the color and gloss retention of the powder coated parts. Contact your Burke Representative for more information on colors, price and warranty.

**Compound Plastics with UV-15:** You'll get long wear and bright, vibrant colors that hold up for years thanks to our thick, durable rotomolded plastics with UV-15 protection. This is why we can cover them for 15 years under our non-prorated Generations Warranty.

**Climbing Cables:** Our climbing cables are flexible enough to provide movement, yet strong enough to last. Our ropes are made from six polyester cords with steel reinforcement wrapped around a synthetic fiber core. Each cord contains eight galvanized steel strands tightly covered with polyester multi-fibers. Our RopeVenture cables consist of six strands, each containing 24 stainless steel reinforcing strands within a nylon sleeve, wrapped around a solid nylon core.

**Aluminum Connectors:** Swivel connectors at the end of our ropes allow assembly at any angle with no unwanted twists in the net. The aluminum fittings used to secure the joints are swaged in place to prevent any movement between the rope and fittings that could cause wear.

# TESTIMONIALS

*"Service, Safety, Quality. Three words I would use to describe the people, business model, and overall organizational standards that inspires the BCI Burke Company. Every organization has a unique set of challenges and goals when it comes to building an educational environment - and from our experience, BCI Burke came to the table ready to work with us as partners to meet those challenges and goals head on.*

*We chose to work with BCI Burke because we needed a reliable company that would be able to provide nothing less than the highest quality product with our own time limitations. As with most other businesses, we did not have the luxury of making an investment into a project of this magnitude and not feel 100% certain that we had gotten the very best of our dollar. We also had to assure our stakeholders that we would see that investment last the test of time.*

*BCI Burke offered us superb and consistent customer service, the ability to achieve our goal on a fast timetable, and the confidence that our playground is genuinely the very best in design and safety. This is something that we will showcase in our school for many years to come.*

*After working with the company, I know personally they are committed to go the extra mile to satisfy your needs. BCI Burke is a master in their field but also provide the customer with an intuitive understanding of service".*

*"I am writing to tell you how much I enjoyed and appreciated working with your local representative...Through the years, I have worked with a number of playground companies, but never with anyone with the professionalism, commitment and follow-through of (your Burke Rep). We are all so excited about our children having the opportunity to play on your wonderful equipment; of course, we want everything! We are so impressed with the many, many possible designs. Thank you for the quality of your equipment and your local representatives."*
